

# Liners & Suspension

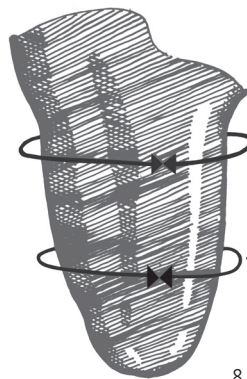

## Alpha® AK Sleeve

Designed specifically for transfemoral amputees, the **Alpha AK Sleeve** may be used with suction suspension as well as with LimbLogic™ VS for creating an airtight seal. The sleeve features the same flexible fabric as the Alpha Flex sleeve. The Alpha AK Sleeve also uses a unique blend of Kevlar pulp and traditional Alpha gel with mineral oil for increased sleeve durability and greater puncture and abrasion resistance.

- **Designed for Transfemoral Use with LimbLogic VS**
- **Features Kevlar®-Reinforced Alpha® Gel**
- **Flexible Fabric**
