P-POD™ Aluminum Foot Pyramid Receiver

The P-POD Aluminum Foot Pyramid Receiver is a great space saver for pediatric patients with long residual limbs. Developed specifically for use with our P-POD SACH and P-POD Impulse® feet, the use of P-POD components with any manufacturers' adult-sized components will void warranty. A one year warranty applies three weeks from the date of purchase. The weight limit is 132 lbs (60 kg). Body weight plus any loads normally or routinely carried cannot exceed this limit.

P-POD™ Titanium Foot Pyramid Adapter

The P-POD Titanium Foot Pyramid Adapter is another great solution that buys a little extra space. We also recommend use of this product with only P-POD feet. The same one year warranty allowing three weeks from date of purchase applies. The weight limit is 132 lbs (60 kg). Body weight plus any loads normally or routinely carried cannot exceed this weight limit.

P-POD™ Titanium Symes Nut

A P-POD Titanium Symes Nut is also available. As with the other P-POD components, use of this product with any manufacturers adult-sized components will void the one year warranty, and use with other manufacturers pediatric components is at the discretion of the attending practitioner. A one year warranty period applies beginning three weeks after purchase. Patient weight limit is 132 lbs (60 kg). Body weight plus any loads routinely carried should not exceed this limit.
